

Ahmed Rehan

Full-stack engineer for developer tools, automation, webhook/API systems, and AI-agent workflows

I help teams turn messy integration, tooling, and workflow problems into reliable products with stronger UX, verification, and handoff quality.

ARLabs Open source Devtools Webhook APIs Agent systems

Summary

Product-minded full-stack engineer focused on developer tools, workflow automation, webhook/API infrastructure, and AI-agent systems. Strongest where the software has to ship cleanly, survive real usage, and remain understandable after the first launch.

Selected public products

Webhook Debugger and Logger

Open-source webhook suite for capture, replay, forwarding, validation, mocking, and signature-aware debugging.

25 GitHub stars · 3 forks · latest public release v3.0.5

[GitHub repo](#) · [Show HN launch](#)

agent-harness

TypeScript CLI for discovering, staging, activating, and wiring reusable AI-agent assets across major coding hosts.

6 supported hosts · 3 GitHub stars · 1 fork

[GitHub repo](#) · [Dev.to write-up](#)

penpot-mcp

Agent-facing Penpot workflow for design-system maintenance and design-to-code operations.

9 GitHub stars · 2 forks · official MCP workflow

Experience

Independent Engineer & Founder — ARLabs

ARLabs / solo product work Mar 2022 – Present

- Built and shipped public tooling across agent-harness, Webhook Debugger and Logger, and penpot-mcp — covering reusable agent assets, webhook replay/validation flows, and Penpot design-system

workflows.

- Current public proof: Webhook Debugger (25 stars, 3 forks, v3.0.5), agent-harness (6 supported hosts, 3 stars, 1 fork), penpot-mcp (9 stars, 2 forks).
- Supported launches with public Dev.to write-ups, Hacker News launch proof, certification links, and portfolio case studies instead of hiding the work behind vague claims.

Frontend Engineer

Eagle 6Feb 2018 – Mar 2022

Core stack: Angular · TypeScript · RxJS · Akita · GoJS · D3 · Highcharts · Leaflet · TUS · Jest · SCSS

- Built Angular-based modules for a cybersecurity product that helped large enterprises detect unknown vulnerabilities before they exposed systems to risk.
- Delivered document workflows, cloud storage, organization charts, plugin-based document editing, chunked uploads, and monitoring graphs/maps across a 4-year product tenure.
- Interviewed and helped hire frontend developers, reviewed code, restructured state management, and standardized a more accessible Material-aligned UI baseline.

Full-Stack Freelance Contractor

Upwork / independent client workMay 2017 – Feb 2018

- Delivered end-to-end client work across web and mobile, including a 115-hour Azure/Citrix App Layering engagement, a 61-hour Grocery CRUD build, and an \$850 fixed-price OpenCart mobile app project.
- Worked across Angular, Ionic, PHP, MySQL, Apache/Nginx, REST APIs, Cordova, and inherited codebases while handling implementation through deployment.

Founder / Owner

Goggle HuntMay 2017 – Sep 2017

Exit proof: Flippa listing preserved at flippa.com/9034806-your-one-stop-shop-for-fashion-and-sports-goggles

- Built, marketed, and sold a Shopify store; grew a few hundred social followers and roughly 150 email subscribers before exiting on Flippa.
- Handled product sourcing, campaign operations, giveaway-based acquisition, and the sale process while also freelancing full-time.

PHP Developer

GMINNSJul 2015 – Apr 2016

Built and customized PHP web applications, including database-driven features and client-specific CMS work.

Web Developer

COMITSJul 2014 – Mar 2015

Delivered PHP / JavaScript client projects, including WordPress and OpenCart work for local businesses.

Technical skills

Frontend: TypeScript, Angular, React, Next.js, RxJS, Angular Material, Akita, Jest, SCSS, D3, Highcharts, GoJS, Leaflet

Backend / product systems: Node.js, Express, ASP.NET Core, PHP, CodeIgniter, WordPress, OpenCart, API integrations, automation workflows

Data / delivery: MySQL, SQL Server, Docker, Azure, Linux, Vercel, Apify, Git, GitHub, Jira, VS Code

Infrastructure: Apache, Nginx, IIS, Cordova, Xamarin, Citrix App Layering

Education & certifications

M.C.S. — Master of Computer Science

Arid Agriculture University, Rawalpindi Oct 2014 – Aug 2016

B.Sc. — Computer, Statistics and Mathematics

University of the Punjab Sep 2012 – Jul 2014
