AI Anthropic Partner

Devtools

Webhooks

AI workflows

Open source

★ SUMMARY

Full-stack engineer and solo builder focused on developer tools, webhook/API systems, workflow automation, and AI-assisted product workflows. I help clients turn messy integration and tooling problems into shipped products with real implementation depth, reliable delivery, and clean handoff quality.

Best-fit work: Developer tools, internal dashboards, webhook/API integrations, debugging systems, automation-heavy products, and engineering utilities.

📦 CLIENT DELIVERY PROOF

Full-Stack Freelance Contractor

Upwork / Independent Client Work

May 2017 – Feb 2018

- Implemented, maintained, and delivered solo projects as a freelance contractor — 40+ jobs, 5.0★ rating.
- Created a Microsoft Remote Desktop Services project with Citrix App Layering on Azure — learned the entire stack from scratch across a 115-hour engagement.
- Built and extended mobile apps with Ionic 3, Angular 5+, PHP, MySQL, and Apache Cordova; deployed backends on UNIX, Apache, Nginx.
- Spun out free and open-source projects from freelancing work (with client consent); contributed bugfixes to open-source libraries.
- Fixed, maintained, and extended existing projects developed and deployed by other developers.

Angular · Ionic · TypeScript · PHP · MySQL · Azure · Cordova · Apache · Nginx

✂ SELECTED PRODUCTS

Webhook Debugger and Logger

Open-source webhook testing suite: capture, replay, forward, validate, mock, SSE streaming. Show HN front page. 25★.

github.com/ar27111994/webhook-debugger-logger

agent-harness

TypeScript CLI for discovering, staging, and wiring reusable AI-agent assets across 6 coding hosts. 3★.

github.com/ar27111994/agent-harness

★ ENTERPRISE BACKGROUND

Frontend Engineer

Eagle 6 — cybersecurity

Feb 2018 – Mar 2022

- Built enterprise product modules: cloud storage with role-based permissions, org chart modeling (GoJS + Akita), plugin-based document editing, chunked TUS uploads.
- Built network monitoring dashboards: D3, Highcharts, Leaflet, OSM; standardized org-wide UI to accessible Material Design.
- Interviewed and helped hire frontend developers; drove code quality and mentored the team.

Angular · TypeScript · RxJS · Akita · GoJS · D3 · Highcharts · Leaflet · Jest · SCSS

Founder / Owner — Goggle Hunt

Shopify dropshipping — 600K/mo keyword, Flippa exit

May 2017 – Sep 2017

Built, marketed, and sold a Shopify store; Instagram influencer outreach, Gleam competitions, ~150 email subscribers.

💬 WHAT CLIENTS SAY

"Ahmed is a trusted member of our team. He has always produced top quality work. We will always return to him first when we get more work." — Upwork Client, Citrix App Layering + Azure POC (115h)

"Ahmed's work on our project was outstanding. His communication was top-notch, he met all deadlines, and his skills were exceptionally strong." — Upwork Client, Grocery CRUD (61h)

"Ahmed exemplifies everything a company would need in a Frontend Developer: Collaborative, Critical Thinker, Hard Worker, and Extremely Knowledgeable." — Reilly Gray, Scrum Master II, Eagle 6
